**Analyses Results:**

Material No.	Description	Detected Substances
M001	Representative Clear Dry Inlay	None

**Remarks (if applicable):**

SVHC content of the entire article(s) produced and/or imported is not above a concentration of 0.1% (w/w). Therefore the obligations per Article 33 of EC no. 1907/2006 are not required.

The theoretical content in an article is calculated for the mentioned SVHC substance(s). It is suggested to check the respective recipe if the theoretical content of the respective substance >0.1% in the weight of whole article.

**Notes:**

The material whose weight is <0.1% of the total weight in an article is neglected for testing.

The tested material(s) was screened only for selected SVHC substance(s). Selection of tests refers to the material type, application, amount and any additional product evaluation.

The SVHC substances which are not mentioned in the test result were either not subject to testing according to selection criteria or not detected.
